ABOUT ME

Hi ! It's me Shikha, previously worked at Orvi Surfaces in Jaipur, as a Senior Furniture Designer. Creativity has been a part of me since childhood—it's not just something I do, it's who I am. That passion naturally shaped my journey into the world of design. This is a glimpse of my professional journey, and I invite you to take a ride with me—exploring ideas, creations and the stories behind them.

My design philosophy is rooted in ***"Perfection in Simplicity."*** I believe that the most powerful designs are often the simplest—where creativity meets clarity, and innovation serves a purpose. For me, design is not just about aesthetics; it's about creating meaningful solutions that enhance everyday life. I see design as a quiet harmony present in even the simplest objects. It's where elegance meets functionality, and where simplicity reveals true perfection.

Coffee Table

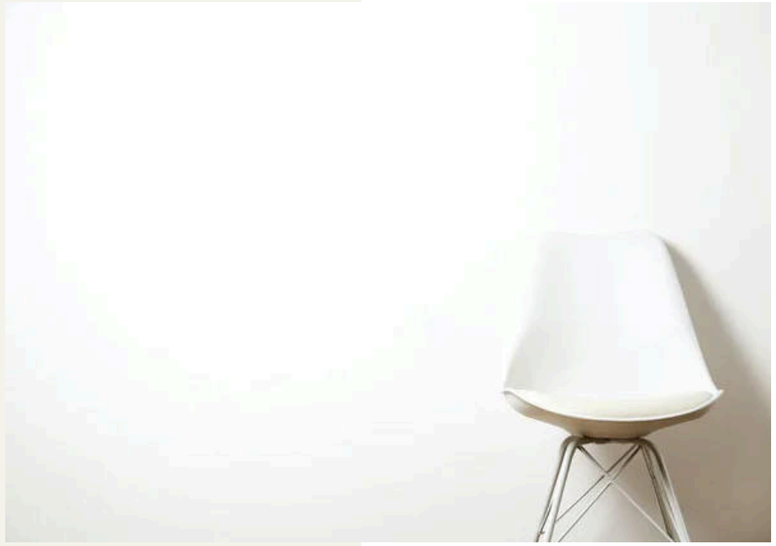

OUR STORY

In a world filled with constant noise and clutter, there's a growing appreciation for the beauty of simplicity and minimalism. This philosophy extends to interior design, where the minimalistic approach has gained immense popularity. One area where this aesthetic truly shines is the coffee table – a central piece of furniture in many living rooms. A simple centre coffee table is a complete statement of style. it's the piece that you need at your place.

LESS IS MORE

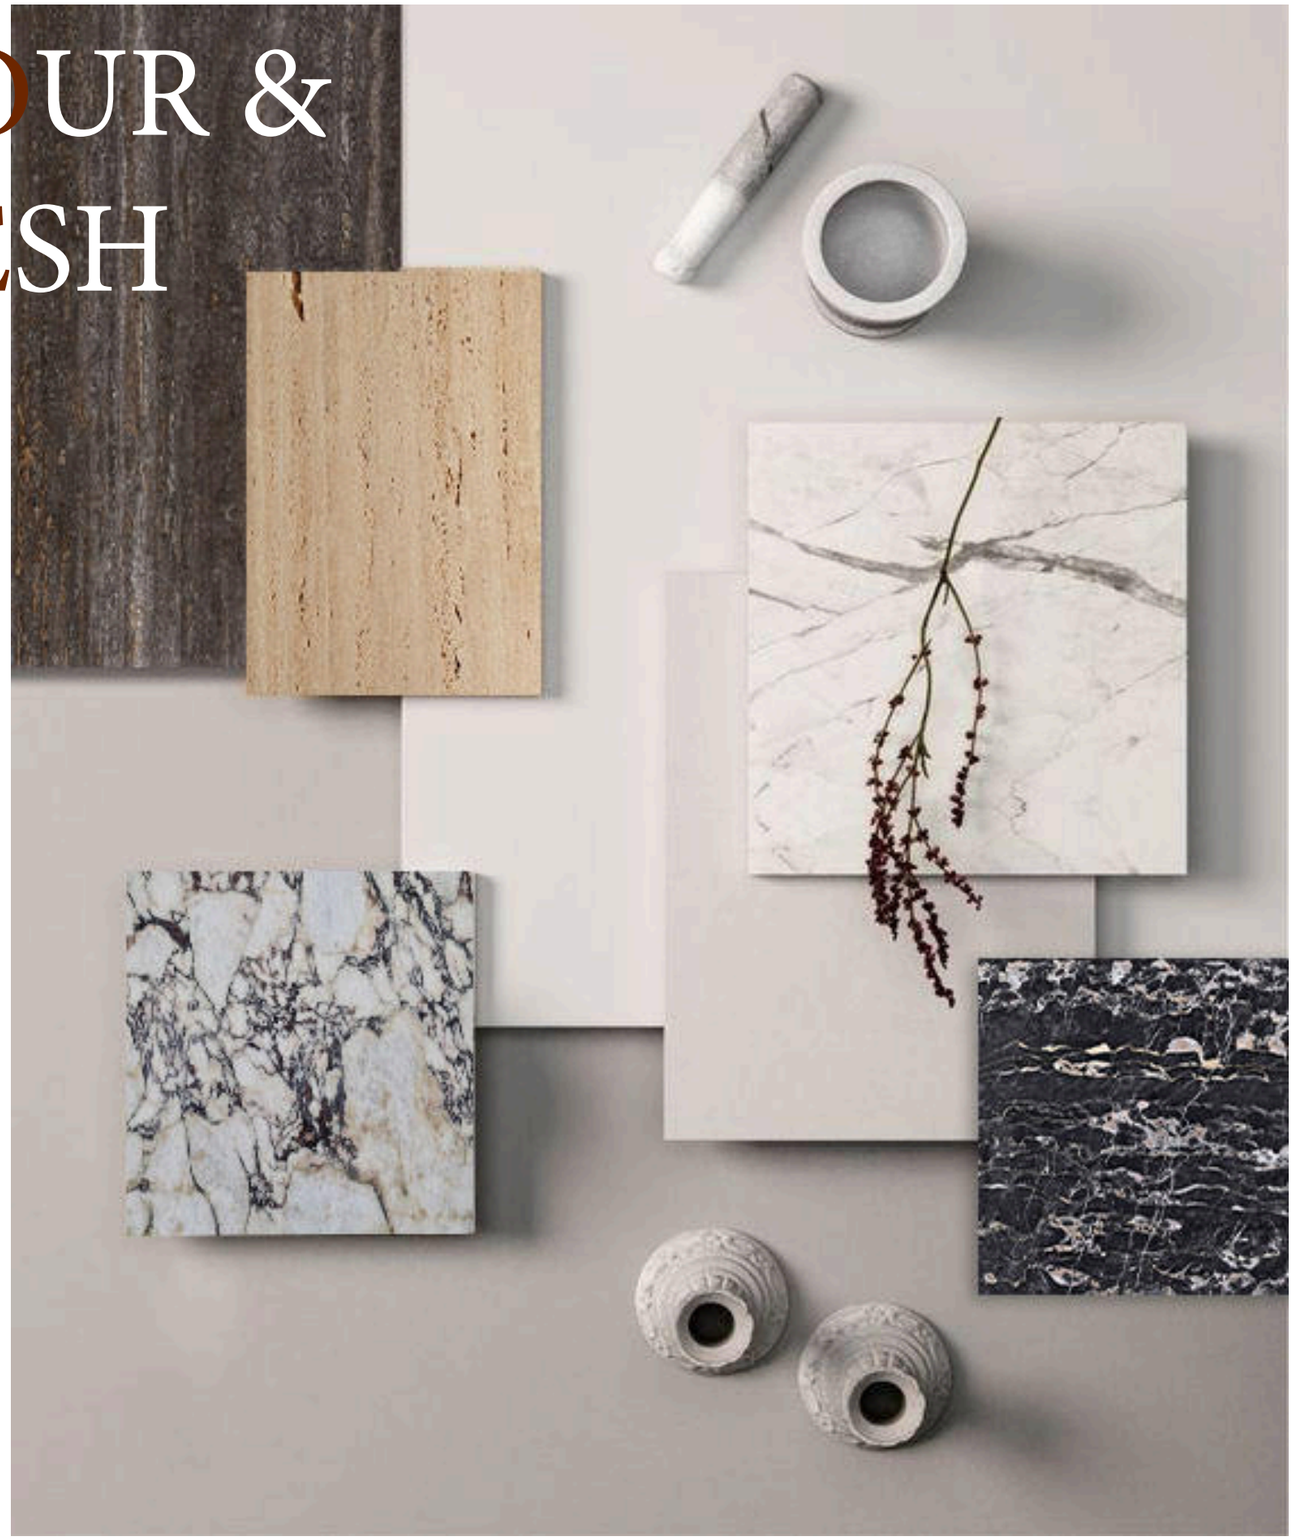

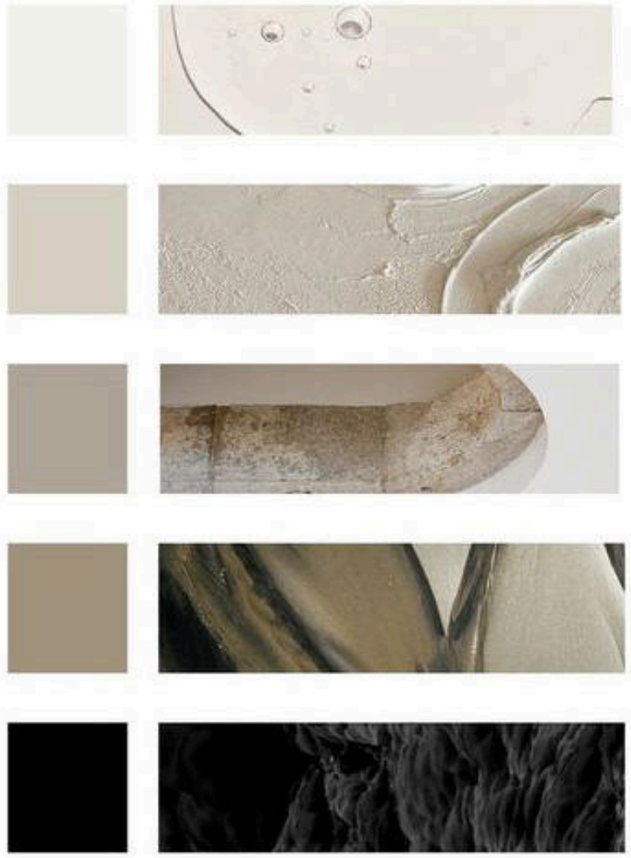

MINIMA

INDUSTRY BRIEF: Design a Marble centre coffee table. It should be simple and production-friendly.

My inspiration for this coffee table in MINIMALISTIC becouse Minimalism is not just a design trend ,it's a lifestyle choice that emphasizes the importance of living with less, focusing on what truly matters, and finding beauty in simplicity. A minimalistic coffee table setup embodies these principles, creating a serene and clutter-free environment.

Loto Coffee Table

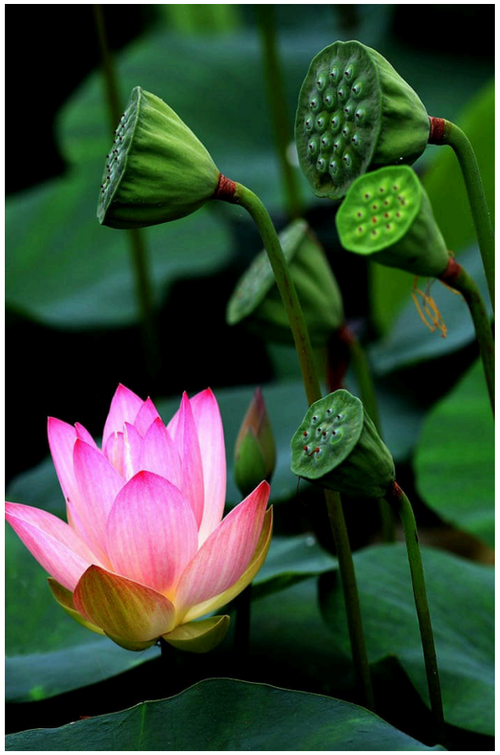

The lotus leaf-inspired coffee table represents my commitment to merging art, nature, and functionality in my design work. It is a testament to my dedication to creating pieces that not only serve a purpose but also inspire and evoke emotions. This coffee table is more than just furniture; it's a piece of art that brings the beauty of the natural world into our daily lives. The lotus leaf's symbolism of purity, resilience, and serenity has inspired countless artists and designers throughout history. I wanted to pay homage to this inspirational source by infusing those qualities into a functional and aesthetically pleasing piece of furniture.

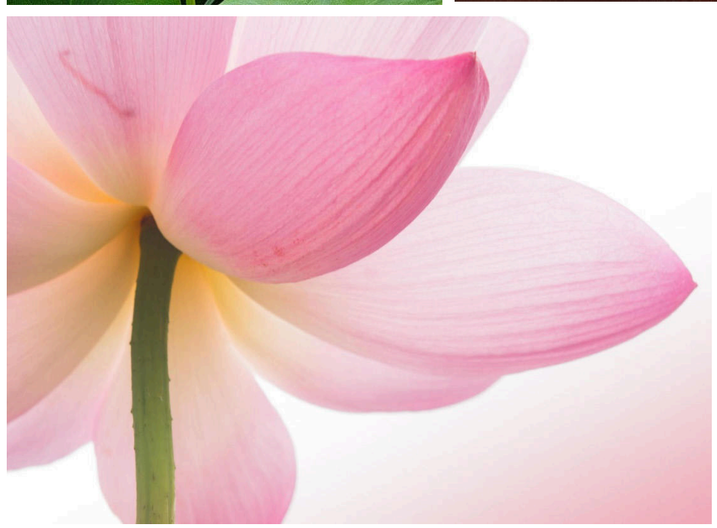

INSPITATION BOARD

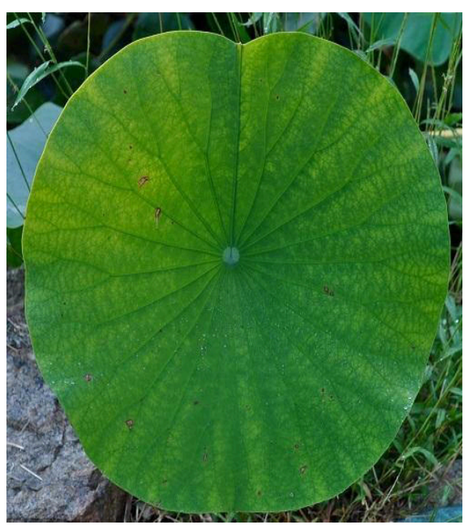

INDUSTRY BRIEF: Design a centre coffee table. It should be simple and production-friendly.

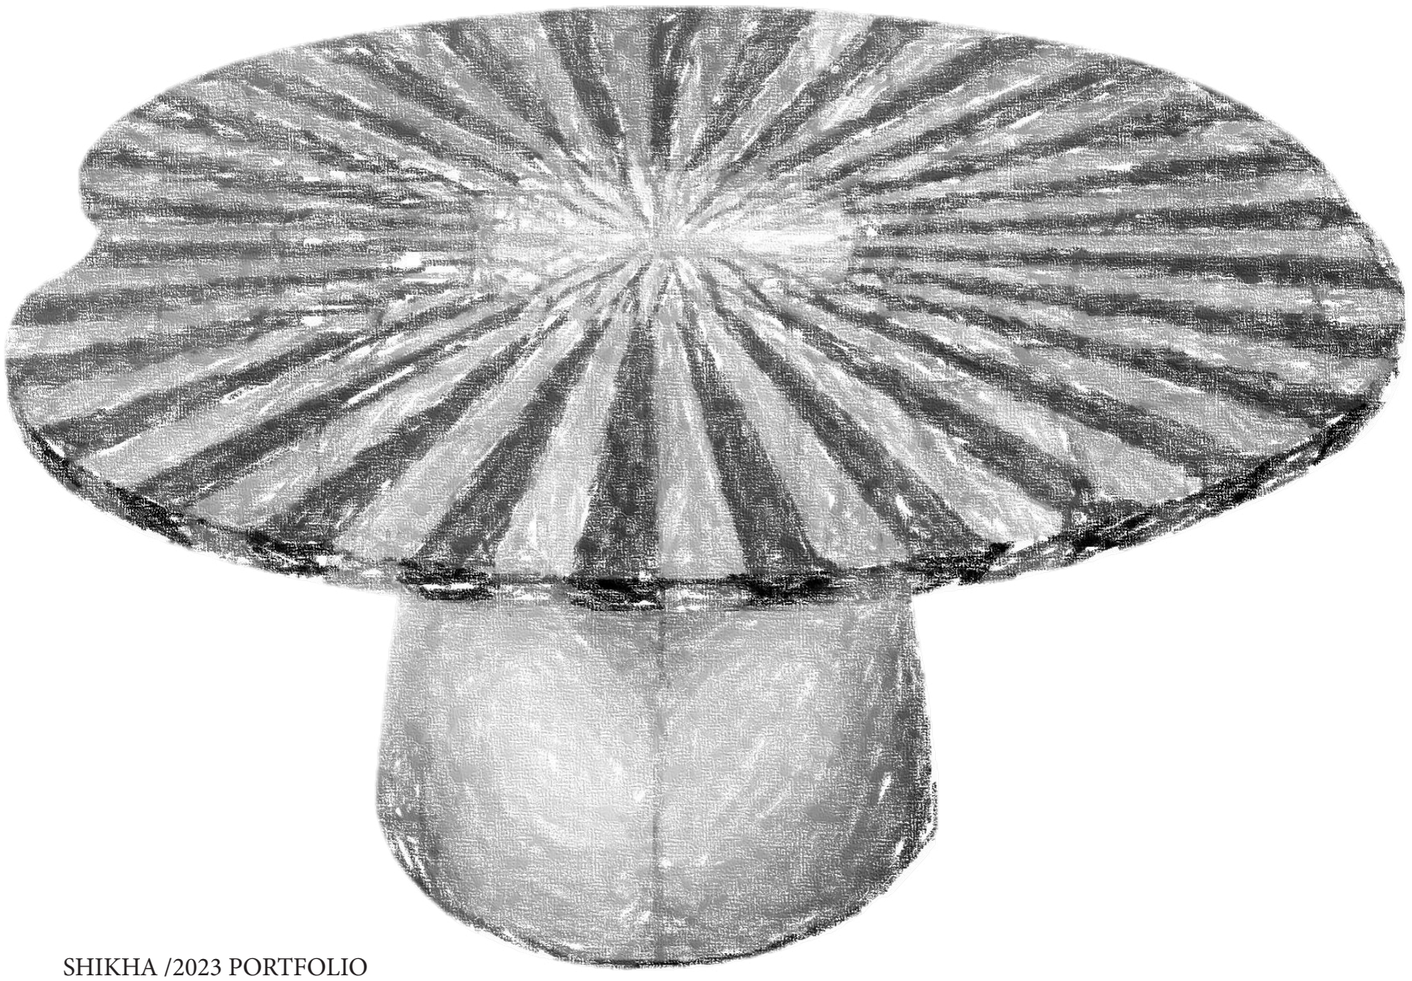

The Lotus Flower grows in the deep mud, far away from the sun. But, sooner or later, the Lotus reaches the light becoming the most beautiful flower ever. that's how life work we all do heavy work in our day time but one cup of coffee refresh our mind and make our day energetic. my design concept for a coffee table inspired by the elegance and natural beauty of the lotus leaf. The lotus leaf, known for its captivating form and ability to repel water, serves as a symbol of purity and tranquility. My aim was to capture these qualities in a functional piece of furniture that seamlessly combines art and utility.

LOTO COFFEE TABLE

Elevate your living space with the Lotus Leaf-inspired Coffee Table, where art, design, and nature converge. Embrace the elegance and tranquillity of the lotus leaf, and bring natural beauty into your home. This coffee table is not just furniture; it's a statement of your appreciation for the harmony found in the world around us. Loto is a coffee table with a simple and pleasing design. Loto means "lotus" in Italian. It is a combination of two dark and light tone wooden tops with a light antique gold metal base. For making its interesting I add a CNC carved metallic lotus leaf on the top which is inspired by lotus leaf pattern and its texture.

SACRED OF GEOMETRY

INDUSTRY BRIEF: Design a console in metal . It should be simple and production-friendly.

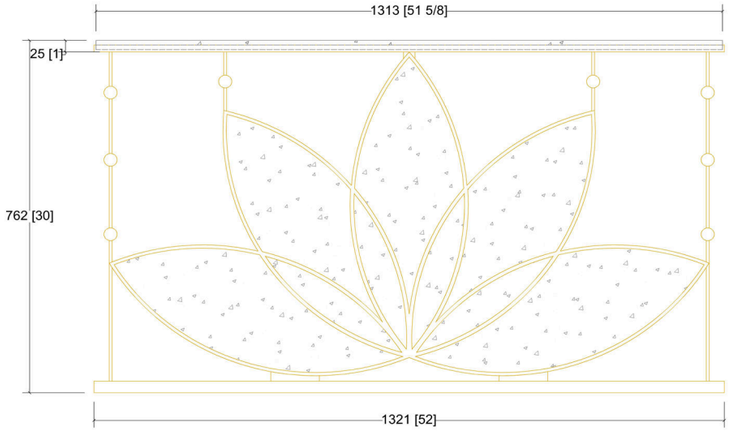

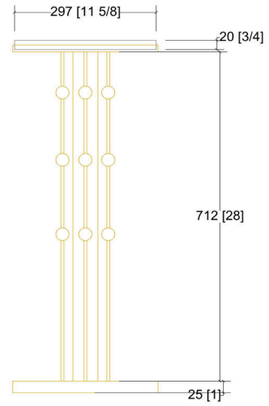

My inspiration is Sacred of Geometry for this console because Sacred geometry is a rich and diverse field that blends mathematics, art, spirituality, and science. Sacred of geometry is the study of geometric shapes, patterns, and proportions that hold spiritual and symbolic significance in various cultures and religions. It is often associated with the belief that these geometric forms have a profound connection to the fundamental principles of the universe.

Vertical Garden Solution

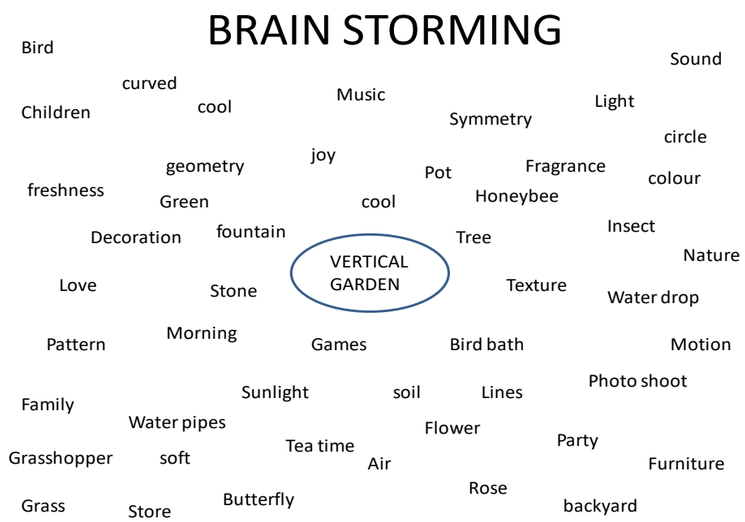

ACADEMIC PROJECT

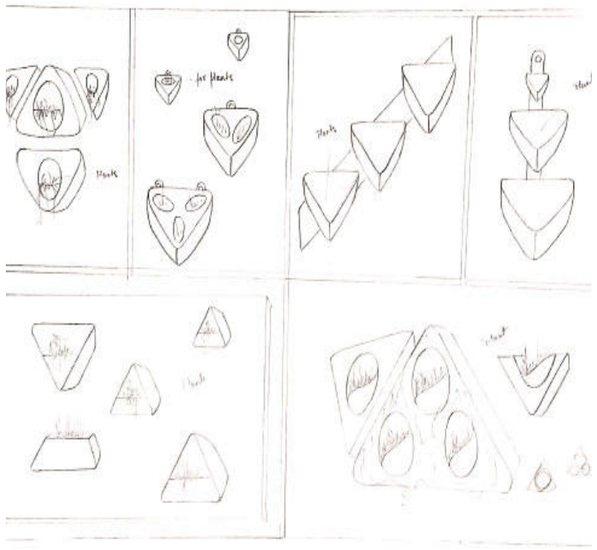

BRIEF: To design a range of products for a specific area. I have chosen a vertical garden solution as my product for outdoor space in an urban area. I was inspired by symmetry in nature.

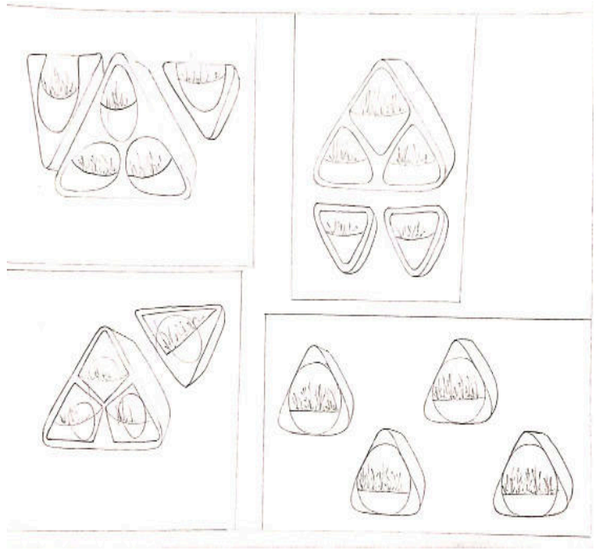

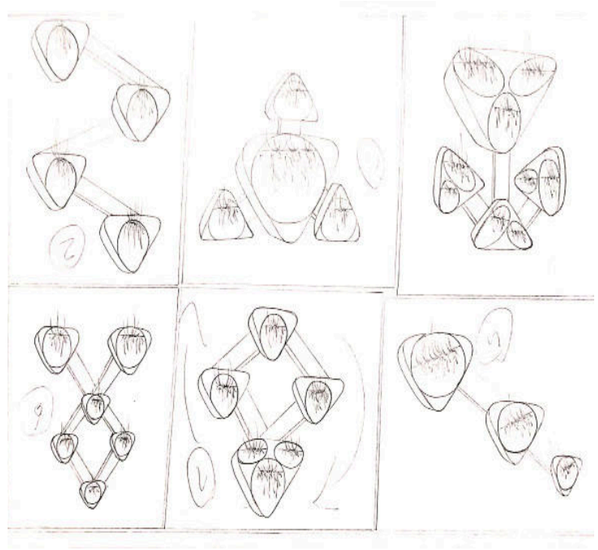

The most general law in nature is “equity” the principle of balance and symmetry which guides the growth of forms along the lines of the greatest structure efficiency.

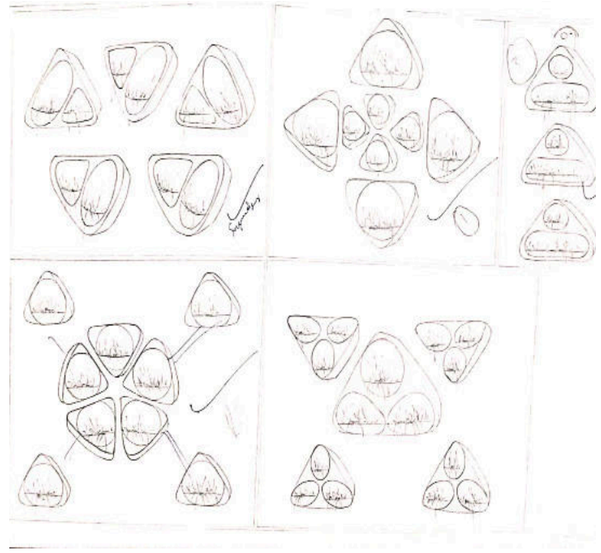

My product is a vertical garden solution for middle to a higher middle-class families. This product is for those people who lived in an urban area and wants a garden in their house but due to the unavailability of space, they can’t afford it. So Vertical garden is a wonderful way to grow and maintain a garden when you have limited space available in your house. It also decreases the temperature of our surroundings and also provides fresh air which is very essential for our life. In the urban area, we suffered a lot of problems caused by pollution. So I designed a smart concept of the vertical garden which not only gives an aesthetic look to your house, it will also help in our environment.”
